

NEW STANDARD IN INVESTMENT PLATFORMS

WHO WE ARE

NSIP (New Standard in Investment Platforms) is an international investment platform established to introduce a new approach to capital management and financial operations.

Our foundation lies in professional analysis and manual trading: our team of experts monitors cryptocurrency markets on a daily basis, studies fundamental factors and demand dynamics, and executes trades with the highest level of precision.

The new standard we are building is based on three core principles:

- **Reliability** — investors' capital is safeguarded through a rigorous risk management system and a conservative approach to asset allocation.
- **Income stability** — profits are generated under pre-defined conditions, making returns predictable and accessible to every investor.
- **Intelligent approach** — comprehensive market analysis, strategic capital management, and a long-term vision.

We believe that investments should be not only profitable but also sustainable. That is why NSIP combines professional trading with modern financial technologies, creating a unified ecosystem.

HOW WE EARN

The core source of NSIP's income is active cryptocurrency trading. We do not rely on automated algorithms; instead, we utilise the knowledge and expertise of analysts who understand market logic and can adapt to its volatility.

Our strategy includes:

- **Fundamental analysis:** assessing projects, technologies, market potential, and global trends.
- **Technical analysis:** working with charts, patterns, and indicators to identify optimal entry and exit points.
- **Capital management:** applying strict risk limits, diversifying assets, and maintaining constant oversight of open positions.
- **Arbitrage opportunities:** taking advantage of price differences between exchanges for additional profit.

What makes our “new standard”?

We have brought together two worlds:

- **Professional investment**, where real trading results shape your returns.
- **Modern payment solutions**, where your funds always remain available to you — securely and conveniently.

This is more than just an investment. It is a complete ecosystem in which your capital works for you and financial operations become as straightforward as possible.

OUR BUSINESS MODEL

At the heart of NSIP's model lies a simple yet thoroughly considered principle: each investment plan offers a fixed ROI, but investors with larger deposits can achieve this goal faster. This is not due to a “magical” increase in percentages, but thanks to economies of scale, flexible capital allocation, and the ability to direct larger sums into more intensive trading strategies.

CAPITAL ALLOCATION: WHY NOT TRADE EVERYTHING AT ONCE?

The key idea is a balance between profitability and sustainability. That is why we divide funds into several functional blocks:

- **Trading Pool** — capital allocated for active exchange operations.
- **Reserve Fund** — a buffer for covering short-term obligations and smoothing drawdowns.
- **Operational Fund** — expenses for execution, commissions, and partner payments.

This approach allows us to:

- Ensure timely payouts to investors,
- Minimize force majeure risks with a liquid buffer,
- Control exposure during periods of high volatility.

WHY A LARGER DEPOSIT CAN “ACCELERATE” ACHIEVING THE SAME YIELD?

While percentage returns remain fixed under equal conditions, larger deposits provide several practical advantages:

- **Economies of scale** — relative transaction and commission costs decrease when operating with higher volumes.
- **Access to more intensive strategies** — some trading methods require a minimum capital threshold for effective execution; larger deposits allow participation in a broader range of such opportunities.
- **Higher absolute profit** — with the same percentage yield, a larger sum generates more profit per unit of time, enabling investors to reach their targeted earnings faster.
- **Priority allocation into “trading tranches”** — within one program, we can form accelerated tranches for larger deposits, where capital is deployed in more aggressive yet controlled market conditions.

⚠ Important: this does not mean a higher interest rate for larger deposits. Instead, it is the opportunity to reach the same percentage target in shorter timeframes while maintaining an appropriate level of risk.

RISK MANAGEMENT AND CAPITAL PROTECTION

Risk management is a central part of our model. We apply:

- Strict loss limits per position,
- Diversification across assets and exchanges,
- Real-time exposure monitoring,
- Regular strategy reviews and backtesting.

Additionally, part of the profits is directed to the reserve fund, which serves to smooth volatility and secure obligations to investors.

GETTING STARTED WITH NSIP

STEP 1 CREATE YOUR ACCOUNT

Register on the platform by providing your name, email, and a secure password. After registration, make sure to enable Two-Factor Authentication (2FA) in your account settings for maximum security, and save your withdrawal wallet address to ensure smooth future transactions.

STEP 2 CHOOSE AN INVESTMENT PLAN

Browse through our available investment plans and select the one that best suits your goals and preferred timeframe. You can open an unlimited number of active deposits within each plan, giving you the flexibility to manage and grow your investments the way you prefer.

STEP 3 ACTIVATE YOUR DEPOSIT

To activate your deposit, select one of the supported cryptocurrencies and make sure the transfer is completed in the same currency you've chosen. The system will generate a one-time wallet address for your transaction — funds must be sent to this address exactly as specified. Once the transfer is confirmed, your deposit becomes active.

WHY CHOOSE US?

Choosing where to invest is always about trust, reliability, and long-term vision. At NSIP, we strive to set ourselves apart by offering more than just another investment service. We provide a platform where your capital is managed with precision, care, and expertise.

Here's why investors choose NSIP:

- **Professional expertise** – Our team of skilled analysts conducts in-depth market research and makes trading decisions based on knowledge, not automation.
- **Stable returns** – With fixed investment plans, we ensure that your profits are predictable and not dependent on daily market volatility.
- **Risk management** – Every decision is backed by strict risk-control policies to protect investor capital.
- **Accessibility** – Simple deposit and withdrawal processes make investing easy, even for those new to cryptocurrency.
- **Global vision** – NSIP is designed to work seamlessly for investors worldwide, combining security with convenience.

We believe that investing should be both profitable and reliable — that's why we set a new standard in investments.

OUR INVESTMENT PROPOSAL

Plan Details	Sprout	Pulse	Flare	Crown
Deposit Amount	\$35-\$99	\$100-\$499	\$500-\$1499	\$1500-\$10000
Daily Profit	1.00%	1.25%	1.45%	1.65%
Plan Duration (Calendar Days)	65	52	45	40
ROI	65%	65%	65%	66%
Compound ROI	91%	91%	91%	92%
Deposit Returned	Yes	Yes	Yes	Yes
Compound Option	Yes	Yes	Yes	Yes
Early Deposit Release	Yes	Yes	Yes	Yes
Early Release Fee 30%	From Day 10	From Day 7	From Day 5	From Day 3
Early Release Fee 15%	From Day 20	From Day 15	From Day 10	From Day 7
Early Release Fee 0%	From Day 30	From Day 25	From Day 20	From Day 15
Withdrawal Fee	0%	0%	0%	0%
Withdrawal Type	Manual	Manual	Manual	Manual
Withdrawal Processing Time	Up to 48 Hours	Up to 48 Hours	Up to 48 Hours	Up to 48 Hours

EARLY DEPOSIT RELEASE

EARLY RELEASE WITH 30% FEE

Available within the first 3–10 days after deposit activation (depending on the chosen Investment Plan). Higher-level plans shorten the waiting period before this option becomes accessible.

EARLY RELEASE WITH 15% FEE

Available after 7–20 days from the moment of deposit activation (depending on the Investment Plan). Higher-level plans allow earlier access.

EARLY RELEASE WITH 0% FEE

Available after 15–30 days since deposit activation (depending on the Investment Plan). Higher-level plans shorten the time required before a fee-free release becomes possible.

OUR REFERRAL PROGRAM

NSIP offers you an additional way to earn through our multi-level Referral Program. By inviting new investors to join the platform via your personal referral link, you can build a steady stream of passive income.

Our program includes 4 reward levels:

- Level 1 – 5%
- Level 2 – 2%
- Level 3 – 1%
- Level 4 – 1%

In total, you can receive up to 9% of the active deposits made by your referrals across all levels.

What makes the NSIP Referral Program unique is its accessibility — **you don't need to have an active deposit yourself to start earning.** Simply share your link, invite new members, and once they activate their deposit, your commission is automatically credited to your balance. It's an easy and rewarding way to grow your income while helping others discover the benefits of NSIP.
